

AM CAPABILITY REPORTS

KNOW YOUR OPTIONS

What does it take to be successful with metal AM?

UNDERSTAND YOUR OPTIONS

See what is possible in the world of 3D Printing and how you can harness those capabilities for your products and customers. Our tailored reports outline your options.

COMMUNICATE THE BENEFITS

Take time to explain the manufacturing process to your customers. Share the impact on the product value and performance to build confidence.

BOUND YOUR RISK

Navigate the AM learning curves with confidence. We offer training to help you get the most from a chosen technology. If you prefer turn-key production with training, our Build Share™ program might be right for you.

PROCEED WITH CONFIDENCE

Our AM Capabilities Report outlines materials, technologies, and operators that can meet your goals. We provide options, then it is up to you how to proceed.

START YOUR PROJECT

Once you have selected the material and technology, we can help you take the next steps:

- Identify the Business Case
- Design the Product
- Create the Test Plan
- Fabricate Prototypes
- Measure Performance
- Iterate the Design

Hummingbird Additive provides:

PRODUCT DEVELOPMENT EXPERTISE

BUSINESS CASE ANALYSIS

3D PRINTING PRODUCTION EXPERIENCE

STRATEGIES TO STAY AHEAD OF YOUR COMPETITION
